Mohammed Jarrad
Web Developer

GitHub

As a recent Computer System Engineer graduate, I have a strong foundation in Java, complemented by hands-on experience with the MERN stack. My projects in this domain underscore my capability and enthusiasm for web development. I bring a blend of academic knowledge and practical expertise, eager to learn new technologies that make an impactful contribution in a software development role.

Education

B.S. in Computer Systems Engineering at Palestine Technical University Khadoorie - PTUK   *Sep, 2017 – June, 2022*

Personal Projects

► **MERN E-Commerce Platform - Graduation Project**   *2021-2022*

Built a MERN e-commerce platform with SASS & dark mode & Swiper-js, offering user verification, product categorization, and filtering. Features an admin dashboard for streamlined order and product management.
